

## Goat anti-rabbit IgG HRP

Catalogue #: IS003  
Storage: 4–8°C  
Size: 50µg

### Description:

Goat anti-rabbit IgG (Horseradish peroxidase-conjugated)

### Application:

This goat anti-rabbit IgG HRP is used as the secondary antibody for Western Blotting or ELISA where the primary antibody was generated in rabbit. This Peroxidase-conjugated secondary antibody is suitable for Western Blotting when employing detection by commercially available chemiluminescence substrates.

- Raised against rabbit IgG heavy and light (H+L) chains;
- Supplied at 50 µg in 0.1mL volume in 0.01 M PBS pH 7.4, containing 1.0% BSA and 0.01% thimerosal;
- Horseradish peroxidase-conjugated secondary antibody
- Used in Western Blotting at a dilution of 1:1000 - 1:5000

**For resaech use only**
