

Anti-FLAG

Catalogue #: IT001P

Storage: 4–8°C

Size: 50µg

Description:

Anti-FLAG antibody

Synthetic FLAG sequence containing peptide DYKDDDDK-GC conjugated through a terminal cysteine thiol to maleimide-activated KLH.

Application:

The antibody recognizes the FLAG epitope located on FLAG-tagged fusion proteins at the N-terminus or C-terminus, applying dot blot, immunoblotting, immunoprecipitation and immunocytochemistry assays.
