

Anti-GST

Catalogue #: IT003M

Storage: 4–8°C

Size: 50µg

Description:

Anti-GST

- mouse monoclonal IgG1; 200 µg/ml
- raised against a recombinant GST protein
- directed to the 26 kDa GST specific domain of a fusion protein encoded by a pGEX.3X recombinant vector
- recommended for detection of glutathione-S-transferase (GST) of Schistosoma japonicum origin and GST fusion proteins
- WB and IP of recombinant GST fusion proteins expressed in E. coli; specifically designed to be used in combination with GST expression vectors such as pGEX.3X and pGEX.2T
