

## Anti-Myc

Catalogue #: IT006M  
Storage: 4–8°C  
Size: 50µg/100µL

### *Description:*

Anti-Myc antibody

Mouse monoclonal IgG1; 0.5mg/mL

Epitope corresponding to amino acids 408-439 within the carboxy terminal domain of c-Myc of human origin

### *Application:*

For detection of c-Myc p67 of m, r and h origin by WB, IP, IF, IHC(P) and FCM; also reactive with additional mammalian species, including cat and dog.

Also used in combination with eukaryotic expression vectors encoding proteins with c-Myc (amino acids 408-439) epitope tag.

**For resaech use only**
